**International Subcontracting  
Fair for Parts, Components,  
Modules and Technologies**

# We look forward to seeing you!

Z is one of the leading international subcontracting fairs in Europe. Every other year, it brings together suppliers serving the early and middle stages of production as well as industrial service providers.

The 2025 edition of Z will be a get-together for decision-makers and experts from various industries, including mechanical and plant engineering, automotive and vehicle manufacturing as well as toolmaking.

Two other trade fairs will take place at the same time as Z: Intec – International Trade Fair for Machine Tools, Manufacturing and Automation and GrindTec – International Trade Fair for Tool Grinding and Tool Machining.

Intec, Z and GrindTec form an unparalleled trio of trade fairs covering the entire value chain of the metal processing industry, from the planning phase to the distribution of tailored solutions for users.

We invite you to bring your expertise, products and services to this triple trade fair and join us in this enriching, varied visitor experience.

# Z at a Glance

## A wide range of products and services ...

focuses on subcontractors for machine tool and plant engineering, the automotive and vehicle industries, toolmaking and other industrial sectors.

## International networking...

serves to establish and expand international contacts at the exhibitor stands and numerous supporting events.

- CONTACT Business Meetings

[In cooperation with partners in Saxony from the Enterprise European Network]

- "Welcome to Saxony!" International Cooperation Forum

[In cooperation with the Saxony Economic Development Corporation and international project partners]

## Technological topics ...

focus on the latest issues impacting our future, inspiring visitors as well as fostering knowledge transfer and dialogue within the industry.

- Additive processing – fuel cell production value chain – digitalisation

## Young professionals meet the industry...

on guided tours and in personal conversations about opportunities for internships, thesis projects and jobs.

## A practice-oriented conference programme...

offers symposia, seminars and workshops providing answers to your questions about the industry's transformation.

# Review of Z in 2023

## Exhibitor Feedback

## Visitors

19,300 visitors to Intec, Z and GrindTec  
10,934 attended Z

## International

### Exhibitors at Z

### Visitors

# Exhibition and Visitors

## Key Exhibition Categories

- Parts and components
- Bonding, connecting and assembly processes
- Tools and semi-finished products
- Processing as a technological service
- Tools and equipment for manufacturing supply parts and modules
- Electrical engineering and electronics – single parts, construction elements, manufacturing processes, finishing, assembly and testing
- Industrial services
- Information, organisation, consulting

## Qualified Visitors from the Following Sectors

- Machine tool and plant engineering, toolmaking
- Automotive and vehicle industries
- Electrical engineering and electronics, power plant construction
- Plastics technology and processing
- Medical technology, optical industry
- Rail vehicle construction
- Metal processing

## Influence on Purchasing and Investment Decisions
