Intec

Intec is one of the leading international trade fairs for metalworking.

It offers a full range of production technology for metalworking, automation technology for upstream and downstream processes in production, as well as technology and equipment for workshops and plants.

- Machine tools (cutting, removing, dividing)
- Additive manufacturing processes, laser technology
- Special machine building, machine-related products
- Machine components and accessories, parts, assembly units
- Tools, appliances, clamping devices
- Manufacturing automation and robotics
- Measurement technology and quality control
- Manufacturing technology for renewable energy generation systems
- Storage and conveyor technology
- Research facilities and institutes, universities, colleges
- Services

Intec list of exhibitors

The specialist programme

Industrial production is facing major challenges worldwide. The Intec and Z specialist programme addresses these developments. The trade fair alliance provides you with cross-industry information and orientation for your own business activities in a range of formats while inviting you to network.

CONTACT – Business Meetings 2025

CONTACT Business Meetings offer discussions with companies looking for new customers and qualified suppliers internationally, as well as meetings with providers of innovative technologies.

International cooperation forum “Welcome to Saxony”

The “Welcome to Saxony” international cooperation forum in conjunction with the Saxony Economic Development Corporation offers valuable insights into international markets with a focus on mechanical and plant engineering.

Technology forum “ADDITIVE MANUFACTURING”

The current slogan “ADDITIVE MANUFACTURING – what’s next?” is dedicated to the challenges of a now established technology in combination with conventional manufacturing processes in a variety of industrial application areas.

FORUM.interactive

FORUM.interactive is the central meeting point for exhibitors and visitors. In a range of formats, the forum offers valuable inspiration for new ideas and innovative solutions and creates space for dialogue and networking.

hy.tec –

meeting place for hydrogen systems production

hy.tec is the meeting place for current and potential players in hydrogen system production. The interactive forum will demonstrate market requirements and show how companies from the supplier and machine tool industry can contribute to the production chain.

You can find further information on our specialist programme on our websites at any time.

Z, the international subcontracting fair

Z is one of the leading international supplier trade fairs in Europe. Every other year, it is the platform for suppliers of the lower and middle production stages as well as for industrial service providers. Z’s focus is on supplies for mechanical and plant engineering, the automotive and vehicle industry and other industrial sectors.

- Parts and components
- Bonding, connection and assembly processes
- Tools and semi-finished products
- Processing as a technological supply service
- Tools and equipment for the production of contracted parts and modules
- Electrical engineering and electronics – single components, assembly units, systems for production, finishing, assembly and testing
- Industrial services
- Information, organisation, consulting
